Please don't let the whims of some wealthy asshats outside of Grand Rapids tear apart historical districts all over the state with their selfishness. Michigan historic districts are vital to the health and revitalization of our communities. They preserve our shared heritage for the future. I strongly oppose HB 5232. Please don't let this pass.

Thank you.

**Subject:** legislation on historic districts in MI

I encourage our legislators to act in ways that protects our Michigan history by ensuring legislation is in place to preserve historic districts in our communities. With the pace of change we all live with today, it is more important than ever to keep visible aspects of our history in place and accessible.

Trusting in your good judgement

**Subject:** Historic District Bill

Michigan historic districts are vital to the health of our communities. Please don't endanger them by making it more difficult to designate buildings and districts as historic.

Erasing historic buildings removes culture and diversity from cities and towns, and reduces property values over time.

Michigan historic districts are vital to the health and revitalization of our communities. They preserve our shared heritage for the future.

Although I admit the current law could use a tune-up, I strongly oppose HB 5232 because it does nothing to ease the bureaucratic burden already involved with historic districts, and only makes a complicated situation worse on homeowners and local governments. Furthermore, it was clearly written by a lobbyist with an, and not a person who has the best interests of the state and the public on the whole in mind.

I am writing in opposition to the latest attack on Michigan's Historical Districts. They continue to be a jewel in our state's crown and should not be vulnerable to developers' greed. I cannot stress enough that Historical Districts are an educational component for future generations and left unprotected can never be replaced.

While claiming concern with individual property owners' rights, Afendoulis and his cohorts would trample the significant efforts individual property owners have undertaken to win historic designation for their communities.

These bills should die in committee. And Michigan's historic districts should remain intact.

Thank you.
